

THE BUILDINGS AND PROJECTS OF
LAMB & RICH
ARCHITECTS
AND RELATED FIRMS, 1876-1935

Scott Meacham
2004-2009

Introduction

This catalog expands the list of Gerald Gatz¹ by using firm records kept by Rich.² Rich’s records noted the name of each client from ca. 1885 to the beginning of 1924, reflecting completed buildings, renovations, competition entries, and unbuilt buildings, but not unpaid projects. Rich wrote some entries long after the projects occurred, for example describing Theodore Roosevelt as “President” for a pre-1900 project, and the list contains some errors.

The following catalog lists projects chronologically by location, with unknown locations at the end. Some projects appear twice under different names. Each New York City borough is listed separately. Most construction dates are Rich’s and do not necessarily indicate completion dates. Rich was described as the chief designer of Lamb & Rich, but both partners designed buildings, so each project is attributed to a firm:

I appreciate any information contributed to this ongoing project (dartmo@gmail.com).
